CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2010. Paperback. Book Condition: New. 228 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. Originally published in 1976, The Architecture of Form is a collection of fourteen contributions by ten authors towards a quantitative approach to architectural design. The volume opens with an extended editorial introduction on the logic of design and the question of value, which places the papers into a decision-theoretic framework of descriptions, predictions and evaluations, and these are taken as the headings of the three parts of the volume. This book should be of wide interest to architects, building scientists, systems designers, operational research workers and computer scientists.
