

## One of Us (Paperback)

By Michael Smith

Bantam, United States, 1999. Paperback. Book Condition: New. 175 x 107 mm. Language: English . Brand New Book. It's not what you've done that counts it's what you remember. If you could sell your conscience, could you get away with murder? Hap Thompson works the gray area between truth and lies. He works for REMtemp, taking on other people's memories. It's illegal, but usually harmless. Maybe a petty criminal wants to pass a lie detector test. Or an unfaithful spouse wants to enjoy a guiltless affair. All Hap has to do is carry the memories for a couple of hours. It's easy money. Until a beautiful young woman who committed murder leaves her memory with Hap and won't take it back. Now Hap is on the run: from the LAPD, from six angels of death in gray suits and sunglasses, and from the best hit man in the business—his ex-wife. Even worse, people all around Hap are disappearing in a strange white light. His only hope is to negotiate with a guy who may be much more than he seems, so he can stay alive long enough to discover who is and who isn't.

### Reviews

*The most effective publication I have ever read. This is certainly for all those who state that there had not been a worthy of looking at. It's been printed in an extremely straightforward way which is merely soon after I finished reading this publication where basically changed me, change the way in my opinion.*

*Merely no phrases to spell out. I actually have read through and I am certain that I will gonna study once again again later on. You won't truly feel monotony at any time of your time (that's what catalogues are for about should you check with me).*
