

The Imaginative Prose of Oliver Wendell Holmes

Filesize: 7.62 MB

Reviews

It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have got read through during my individual life and might be the finest publication for ever.

University of Missouri Press. Hardback. Book Condition: new. BRAND NEW, The Imaginative Prose of Oliver Wendell Holmes, Michael A. Weinstein, One of the most popular serious writers of the mid-nineteenth century, Oliver Wendell Holmes Sr., was a major figure of the New England Renaissance and wrote seven volumes of imaginative prose that were hybrids of essay and fiction. His four table-talk books initiated the form of the dramatized essay, and his three novels - styled as romances 'medicated' by intellectual discourse - were among the first examples of ideologically didactic fiction. Michael A. Weinstein now traces Holmes's intellectual trajectory across these works to show how his thought evolved over the course of his life and in response to America's transition from an agrarian to an industrial society. Through close readings of this eclectic oeuvre - including such lesser-known late works as "A Mortal Antipathy" and "Over the Teacups" - he offers a comprehensive interpretation of Holmes's thought concerning the American national character, showing him to have had a far richer understanding of human experience than other scholars have previously supposed. In the course of his analysis, Weinstein engages the spectrum of Holmes criticism and also shows how Holmes anticipated the cultural problems of modernity, pluralism, psychoanalysis, and existentialism, as well as postmodern literary expression. Through his insightful assessment, Weinstein gives us an author whose respect for individual judgment is as relevant in today's society, torn by cultural politics, as it was in his own time. His book restores Holmes to his place in the canon while introducing a wider readership to a perceptive writer who offers not only insight into the moral possibilities of American identity but also genuine wit and wisdom about the art of living.
