Gambit Publications Ltd, United Kingdom, 2001. Paperback. Book Condition: New. 208 x 145 mm. Language: English . Brand New Book. This book tackles fundamental questions such as: How should pawns be used to fight for the centre? and How does the central pawn formation affect planning for both sides? These issues are central to understanding chess. Marovic discusses central pawn-structures and their impact on play both in the centre and on the wings. He begins by surveying how the pawn's role in controlling the centre has been developed over the last 150 years, and how this has led to the refinement of concepts such as the dynamic backward pawn and the positional exchange sacrifice. The bulk of the book is devoted to discussions of the main type of centre: Open Centre; Closed/Blocked Centre; Fixed Centre; and in particular the Mobile/Dynamic Centre.
