This book offers the first comprehensive examination of the role of religion in the proceedings, theories, ideas and goals of the Continental Congress. Those who argue that the U.S. was founded as a Christian Nation have made much of the religiosity of the founders, particularly as it was manifested in ritual invocations of a clearly Christian God. Congress's religious activities, Davis shows, expressed an unreflective popular piety, and by no means a determination of the revolutionaries to entrench religion in the federal state.
